What we do.

14

Our Clients.

How we work

Get more done,
stress free.

With Blank Creatives on board you'll sleep easy.

BRIEF

1

Meet with us, tell us your troubles and let's nut it out. At Blank Creatives we like to spend time with all our clients making sure we fully understand the brief: your needs both functionally and aesthetically.

If we take the time now, things will be smooth sailing.

DESIGN

3

Our favourite part begins!

At Blank Creatives we create custom 3D renders for every client, making sure we spend time understanding the design and presenting it to the clients in a way that is easy to interpret.

PLAN & IDEAS

2

We present clients with floor plan options, looking at kitchen work-flow, customer engagement & creative use of space to maximise capacity & add personal touches.

We present design ideas simultaneously. This allows our client to start to breath the space in; its atmospheric qualities, colour, light and materials.

It's also your chance to say yay or nay to ideas!

DEVELOPMENT

4

Once our design has you wowed, we get into the detail.

Documenting through plans, sections & joinery details.

It's the road map for builders.

TENDER & BUILD

5

Blank Creatives offer a range of services during the tender & construction phase.

We can help you pick the right builder; comparing prices & ensuring nothing has been missed.

We are also available during construction, to answer all your builder's questions & ensure they are following the drawings correctly.

OPEN

6

Construction's all done!

We run through the site with the client & make sure the builder hasn't left anything out.

Our Work.

Bourke st Burgers Woollongong

Completed: 2019

Photography: Aristo Risi

Graphic Designer: Claire Fox

Design

Fun, vibrant & playful, this design drew inspiration from it's beach side location.

Take 5 to learn more about us. We promise you won't be disappointed

+

Did you know that a good design, can drive higher business?

In 2015, Michell's Patisserie re-vamped their brand - redesigning and refreshing their existing stores without altering their menu.

They saw a huge increase in turnover, with some stores claiming a 65% increase in sales.

What could we bring to your business?

Blank Who?

We're an energetic interior design firm who love to please.

Blank Creatives offers affordable & creative solutions for all your hospitality & retail needs.

Work with us to transform your business into a living, breathing personality.

We've been on the scene for 4 glorious years, and keep a small close-knit team. You will always know who is working on your project and have a direct line to the whole team. Sure, we may be small in comparison to some of our competitors, but **BIG** isn't always better.

Just last year we were given the opportunity to help establish The Chocolate Room's newest business venture: The Golden Pod. We created their first flagship restaurant in Orlando. We are also working with them to create a presence in Abu Dhabi & Riyadh.

Interior
design
should
be an
extension
of your
brand

You'll be in good hands..

We may be young, but we have the know how.

Blank Creatives' captain, Jasimma, launched us in 2015.

After working at some Sydney's top design firms, Blank Creatives was born. Jasimma absorbed a wealth of knowledge across hospitality & retail design. She had the privilege of working with many franchises from Sumo Salad, to Top Juice, Chatime & DFO shopping outlets world-wide. As our director she has been able to bring that super knowledge to us and share it with every client. She thrives on making sure that every Blank Creatives client is given personal attention, the most creative solutions and most of all that every client brings their hospitality vision to life.

CONCEPT

We craft bespoke designs that turn your brand into a living, breathing personality of its own.

PLANNING

All things spatial planning, from ensuring your kitchen is practical and up to code, to front of house design flow. We make sure that both your staff and customers are happy!

DRAWING PACKAGE

To get that new space of yours built, we take our concept and put it into a format that lets a builder know what to do.

APPROVALS

Can't get your head around the approvals phase? Don't worry about it, we can help!

From aiding in council applications (DA) and working with your private certifier, let us take care of it.

SECURING A SITE

It can be hard to know which space to pick. Why not get us to take a look at them before you say 'I DO'.

What sets us apart?

At Blank Creatives we believe in good design. Good design that is unique to your brand.

Personal touch	Work directly with our boss lady on every project.
Brand focused	We know how important design is to your brand, so we don't cut any corners.
Can do attitude	We'll always try to help you no matter what.
Custom designs	We ensure that every design is tailored to our client's needs. Just because it's in fashion doesn't mean it necessarily suits your brand vision!
Let's work together	We take a collaborative approach, working directly with a client's whole team.
Let's talk budget	Big or small, we are always on board to make it work for you.
Out of the ordinary	Sometimes your brand needs that extra dash of something special to stand out from your competitors. That's our favorite sort of challenge!

We worked closely with the graphic design team, to bring personality into this space!

Our Clients

Parting ways can be tough but we like to foster real relationships with every client, so that good-bye is never just good-bye. See what's been said about us:

Yen & Anh Nguyen @ Nguyen Brothers

"Jasimma, at first sight, will strike you as a creative, a very youthful, active and approachable one. You can always see the eagerness in her in accepting another job, overcoming another hurdle and completing another beautiful and practical design. Over a few projects with Jasimma, our designing phases have always been efficient and fun thanks to her ability to listen and convert ideas to drawing.

Then comes the technical part, Jasimma will show you how technical and technology-savvy she is.

But most of all, we value her work ethics. It was shown through her time management, commitment to deadlines, cost-saving efforts and liaising with other parties on the owner's behalf. We highly recommend Jasimma and wish Blank Creatives grow to its fullest potential."

Tony Nessem @ Black Elk Espresso

"Jasimma is a very talented and professional designer. This was my first time working with her on a new project and found her abilities and input to be great! She was very involved throughout the design and construction process and always available to assist with queries. The final project exceeded our initial expectations and I look forward to working alongside her again on upcoming projects."

Diana Tan @ House of Satay "Thank you Jasimma! Absolutely love our fit-out! Great work :)"

Andrew Harrison @ Lagoon Restaurant & Bourke st Burgers

"I am one of the many satisfied customers of Jasimma and Blank Creatives. Jasimma recognises the value of extraordinary customer service and it shows in her quality of work. Jasimma provides the whole package, from concept through to implementation. I have used her for many of my businesses projects over the last couple of years and I have found her work and ideas to be creative as well as beautiful. She is accomplished with colour and savvy with its usage in her designs. She definitely creates bold, functional and standout spaces! I am proud to recommend Jasimma and Blank Creatives for all interior design needs."

Daniel & Olaa Danil @ Sienna Marina & Sienna Desserts

We have worked with Jasimma and her team at Blank Creatives on many projects over the past 5 years - from Slashed Burgers, to renovating Sienna Marina & more recently our warehouse needs for our dessert business Sienna Desserts.

She is a pleasure to work with & always goes above and beyond to ensure that our projects are completed just the way we want them.

We have also referred her on to many of our friends & colleagues, as Blank Creatives is a professional & fantastic design team.

Kudos

You're on to a good thing!

We hit the mark,
says the press.
